

LANCOM Rack Mount

19" mounting bracket for LANCOM devices in classic housing

LANCOM devices in classic CPE housings, such as our routers of the 17xx series, fit seamlessly into professional 19" cabinets with the LANCOM Rack Mount. The device takes up just a single height unit in the cabinet and the device, cables, and power supply are neatly concealed.

- Rack-mounting bracket for easy mounting of LANCOM devices in classic CPE housing
- Occupies one height unit in the server rack
- Sturdy metal housing with black powder coating
- Dimensions: 48.3 cm x 4.4 cm x 16.0 cm (WxHxD)

LANCOM Rack Mount

Easy mounting of LANCOM devices in classic CPE housing

LANCOM devices in classic CPE housing, such as our routers of the 17xx series, stow space-savings inside 19" racks with the LANCOM Rack Mount. This way, you install the entire network in the server rack and see all of your devices at a glance.

Space-saving unit in the server rack

With the device in place, the LANCOM Rack Mount occupies a single height unit in a 19" rack. This enables you to install the device in a single cabinet along with your other network components.

LANCOM Rack Mount
