1. Preface

The web-based LANCOM R&S®UF Command Center is the ideal solution for managed-security service providers and companies that need to centrally manage, configure, and monitor large numbers of LANCOM R&S®Unified Firewalls. An intuitive dashboard enables management and monitoring, centralized backup administration and archiving as well as license monitoring of all managed LANCOM R&S®Unified Firewalls.

This document describes the innovations within the LANCOM R&S®UF Command Center software release 7, as well as the improvements since the previous version.
