

# CONNECTED CARE: SECURE & WIRELESS

## CARE SERVICE PROVIDER ACZEPTA SECURELY CONNECTS SITES OVER VPN AND OPTIMIZES PROCESSES WITH WLAN

- VPN connection of four locations and Wi-Fi radio link to connect a building to the main office
- Implementation of wireless networking in the buildings (at two sites by controller) and integrated mobile displays
- Support of Wi-Fi for employees, residents and guests with different SSIDs and divided into logically separate subnets

## CUSTOMER BENEFITS

- Efficient and fast cost accounting as well as fast and flexible personnel planning
- Complete and fast documentation of care services via WLAN-enabled displays
- Increased mobility for residents, visitors, and employees thanks to the wireless network
