

# THE FUTURE IS WIRELESS LEARNING

## HIGH-PERFORMANCE WI-FI MAKES SCHOOLS IN THE ARCHDIOCESE OF PADERBORN FIT FOR FUTURE-PROOF, DIGITAL LEARNING

- › LANCOM access points provide schools with uninterrupted Wi-Fi and transmit in the 2.4 and 5 GHz bands with up to 1,733 Mbps
- › Central WLAN controllers carry out the configuration and management of the wireless networks
- › Clients authenticate using MAC address and inventory number

### CUSTOMER BENEFITS

- › Wi-Fi supports the schools with the implementation of media concepts and is the basis for the contemporary communication of learning content in the classroom
- › Flexible use of mobile Wi-Fi-capable clients in class and in learning groups
- › Efficient use of resources and cost savings in the area of media technology
