

WI-FI FROM THE CLOUD GOES TO SCHOOL

FLEXIBLE CLOUD-MANAGED CAMPUS NETWORK, MADE-TO-MEASURE

- › Update of the Wi-Fi infrastructure with high-performance access points and switches in the entire school building of the Viktoriaschule, Aachen
- › Rollout, expansion and monitoring of the entire solution with the LANCOM Management Cloud (LMC)
- › Logically separated subnetworks (administration, teachers' network, teaching WLAN) on one network infrastructure

CUSTOMER BENEFITS

- › Cloud solution for simple, flexible network management that saves time and costs
- › Maximum data protection and security standards thanks to hosting and development of the LMC in Germany
- › Made-to-measure network solution adapted to the didactic school concept
