

Before initial startup, please make sure to take notice of the information regarding the intended use in the enclosed installation guide!

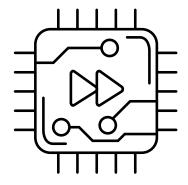

Operate the device only with a professionally installed power supply at a nearby power socket that is freely accessible at all times.

The power plug of the device must be freely accessible.

Please note that support for third-party accessories (SFP and DAC) is not provided.

Hardware Quick Reference LANCOM GS-4554X

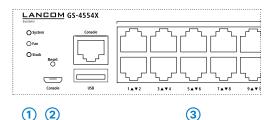

Please observe the following when setting up the device

 \rightarrow For devices to be operated on the desktop, please attach the adhesive rubber footpads. \rightarrow Do not rest any objects on top of the device and do not stack multiple devices.

 \rightarrow Keep all ventilation slots clear of obstruction.

 \rightarrow Mount the device into a 19" unit in a server cabinet using the provided screws and mounting brackets. Both slide-in rails are attached as shown in the accompanying installation instructions www.lancom-systems.com/slide-in-Ml.
