## Hardware Quick Reference LANCOM GS-4554XP

Configuration interfaces RJ-45 & micro USB (Console)

Connect a USB stick to the USB interface to store general

configuration scripts or debug data. You can also use this

Connect the interfaces 1 to 36 via Ethernet cable to your PC or a

Connect the interfaces 37 to 48 via Ethernet cable with at least

Insert suitable LANCOM SFP modules into the SFP+ interfaces 49

to 52. Choose cables which are compatible with the SFP modules

and connect them as described in the SFP modules mounting

instructions: www.lancom-systems.com/SFP-module-MI.

interface to upload a new firmware.

TP Ethernet interfaces 10M / 100M / 1G PoE+

TP Ethernet interfaces 100M / 1G / 2.5G PoE+

CAT5e / S/FTP standard to your PC or a LAN switch.

USB interface

LAN switch.

SFP+ interfaces 1G / 10G

Connect the configuration interface via the included micro USB cable to the USB interface of the device you want to use for configuring / monitoring the switch. Alternatively, use the RJ-45 interface with the provided serial configuration cable.

OOB interface (rear panel)

Use an Ethernet cable to connect this out-of-band service port for an IP interface independent of the switching plane for management tasks or connection to a monitoring server.

QSFP+ interfaces 40G (rear panel)

Plug suitable LANCOM QSFP+ modules into the QSFP+ interfaces 53 and 54. Select cables suitable for the QSFP+ modules and connect them as described in the SFP modules mounting instructions: www.lancom-systems.com/SFP-module-MI.

Power supply module with mains connection socket (rear panel).

Supply the device with power via the power supply socket of the power supply module. Use the supplied power cord or a country-specific LANCOM power cord.

To remove the power supply module, disconnect the module from the power supply and then pull the plug out of the module. While pressing the release lever (1) to the left, you can pull the module out of the device by the handle (10).

Additional slot for power supply module with mains connection socket (rear panel). To install an additional power supply module, remove the corresponding module bay cover by

loosening both associated screws and push the power supply module in as far as it will go until the release lever (1) audibly engages. Check by pulling the handle (10) that the module cannot be removed from the bay without the release lever (11) being pressed to the left.

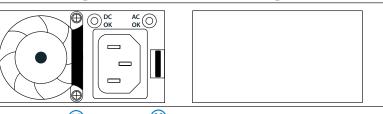

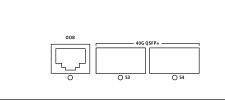

Operate the device only with a professionally installed power supply at a nearby power socket that is freely accessible at all times.

### Please note that support for third-party accessories (SFP and DAC) is not provided.

### Please observe the following when setting up the device

- → For devices to be operated on the desktop, please attach the adhesive rubber footpads.
- → Do not rest any objects on top of the device and do not stack multiple devices.
- → Keep all ventilation slots clear of obstruction.
- → Mount the device into a 19" unit in a server cabinet using the provided screws and mounting brackets. Both slide-in rails are attached as shown in the accompanying installation instructions www.lancom-systems.com/slide-in-Ml.

# 4) TP Ethernet ports 100M / 1G / 2.5G PoE+

### Hardware Exchangeable power supply (110-230 V, 50-60 Hz) Power supply Temperature range 0-40° C; short-term temperature range 0-50° C; humidity 10-90 %, Robust metal housing, 1 HU with removable mounting brackets and slide-in rails, network connections at front and rear, dimensions 442 × 44 × 440 mm (W x H x D) Number of fans

### Interfaces

QSFP+	2 QSFP+ 40 Gbps uplink ports for connection to superordinate core switches or content servers, can also be configured as stacking ports via software
TP Ethernet	36 TP Ethernet ports 10 / 100 / 1000 Mbps PoE+ 12 TP Ethernet ports 100 / 1000 / 2500 Mbps PoE+
SFP+	4 SFP+ 1 / 10 Gbps, uplink ports for connection to superordinate core switches or content servers, can also be configured as stacking ports via software
Console	1 RJ-45 / 1 Micro USB
USB	1 USB host
OOB	1 00B

### **Package Content**

Mounting brackets	2 19" mounting brackets, 2 slide-in rails for rear stabilization in 19" racks
Power supply	1 exchangeable power supply LANCOM SPSU-920, expandable to 2 LANCOM SPSU-920 power supplies (hot swappable, for redundancy operation)
Cables	1 IEC power cord, 1 serial configuration cable, 1 micro USB configuration cable

Hereby, LANCOM Systems GmbH | Adenauerstrasse 20/B2 | D-52146 Wuerselen, declares that this device is in compliance with Directives 2014/30/EU, 2014/35/EU, 2011/65/EU, and Regulation (EC) No. 1907/2006. The full text of the EU Declaration of Conformity is available at the following Internet address: www.lancom-systems.com/doc
