

FUTURE-PROOF ALL-IP MIGRATION

OUR SOLUTION

- VoIP routers that combine a fully featured professional router with a Session Border Controller, Voice Call Manager and firewall
- POS systems and workstations communicate with the main office via secure VPN channels
- Session Border Controller separates the private network from the external network

CUSTOMER BENEFITS

- Cost savings: Analog and ISDN phones remain in use thanks to the new All-IP routers
- Easier administration and improved troubleshooting as fewer dial-in devices are used at the branches
- Session Border Controller ensures excellent voice quality by reserving the Internet bandwidth required for VoIP telephony

Lagardère Travel Retail Deutschland GmbH

Industry: Retail and catering
