## Customer

**Daniel, Hagelskamp & Kollegen** is a long-standing law firm from Aachen, Germany. This company's lawyers and tax advisors think entrepreneurially and see themselves as full-service providers. They aim to offer legal and tax advice of the highest quality in a personal consulting and working atmosphere. The company specializes in international law. Their lawyers are admitted as attorneys-at-law in Germany, Belgium, the Netherlands and Spain, and they have perfect command of the foreign languages.

## Concept / Requirements

- **Future-proof network** that "grows" on demand
- **Professional management functions and highest security standards**
- **Powerful Wi-Fi** for employees, visitors and tenants in other offices

## Solution

- **Full coverage of the offices and conference rooms** with Wi-Fi based on discreet white access points
- **Separate WLANs for employees, visitors and tenants** by means of VLANs and SSIDs
- **Certificate-based authentication** at the employee WLAN and **separate registration of visitors** by SMS at the hotspot
- **Central management** by WLAN controller
- **Use of different connection technologies for the Internet connection** (ADSL, VDSL, SDSL, LTE)
- **Installation of Wireless ePaper Displays** at conference-room doorways

## Benefits

- Homogeneous network consisting of **trusted components** from a German manufacturer
- **Fast access** to electronic filing systems and fast, **mobile working** for employees, visitors and tenants via the wireless network
- **Backup of wired Internet connections** via LTE/4G
- **More transparency** thanks to digital room signs
