

LANCOM Rack Mount Mini

Equipment for mounting LANCOM devices in 10" racks

LANCOM devices in CPE housing, such as routers or access points, are seamlessly integrated into your existing network infrastructure. The LANCOM Rack Mount Mini provides a professional mounting option for all 10" racks. In your rack merely one height unit is required to let devices, cables, and power supplies 'disappear'.

- For an easy mounting of LANCOM devices in CPE housing in 10" racks
- Ideal for installations with limited space capacity or mobile applications
- Robust metal rack with black powder coating
- Measurement 25.4cm x 4.4cm x 16.0cm (WxHxD)

LANCOM Rack Mount Mini

Easy mounting of LANCOM devices in indoor housings

LANCOM devices in CPE housings, including routers or access points, stow neatly inside 10" cabinets with the LANCOM Rack Mount Mini.

Space-saving unit in the server rack

When fitted with the device, the LANCOM Rack Mount Mini occupies just one height unit in a 10" rack. This not only saves space, it also enables you to install the device in a single rack along with your other network components.

Ideal where space is limited

The LANCOM Rack Mount Mini is the ideal solution for a compact and space-saving installation of all your network components. This mounting rail helps you to store all of your devices at one location while saving space.

LANCOM Rack Mount Mini
