Optional:

# Certification as LANCOM Certified Professional Unified Firewalls

LANCOM  
Certification

TRAINING

Following the three-day **LANCOM Professional Workshop Unified Firewalls**, you can demonstrate your new knowledge by taking a certification. A scenario to be implemented according to the specifications invites you to apply the knowledge you have gained. Not only can you confirm your ability to apply the new content to realistic scenarios, you will also receive proof of your know-how. Furthermore, the certificate demonstrates your LANCOM expertise to your customers.

The certification does not necessarily require you to participate in the workshop. Repeaters or re-certifiers can visit the workshop portal to book a place without taking part in the workshop.

Target group	<ul style="list-style-type: none"> <li>Content of the LANCOM Professional Workshop Unified Firewalls</li> </ul> <p>The knowledge imparted in the workshop in theory and practice is a prerequisite for certification.</p>
